

## Hand disinfection

# ASEPTOMAN® FORTE

## Alcoholic hand disinfectant

- Virucidal in 30 seconds
- Perfume-free, especially skin-caring with glycerine and moisturizer
- Surgical hand disinfection in 1.5 minutes

### Product description

ASEPTOMAN FORTE is a virucidal, ethanol-ic hand disinfectant. ASEPTOMAN FORTE achieves a comprehensive spectrum of activity, while showing a very good skin compatibility. Limited spectrum of virucidal activity and virucidal (according to EN 14476) within 30 s.

ASEPTOMAN FORTE has been proven to increase skin hydration as well as softens and smoothes the skin thanks to a proven skin care system and is particularly skin-friendly.

### Range of application

Hygienic and surgical hand disinfection.

### Application

#### Hygienic hand disinfection: 30 s

Apply a sufficient amount of hand disinfectant into hollow dry hands. Keep hands moist with the undiluted product during the entire exposure time. In particular take into account fingertips, thumbs and nail folds and, if necessary, apply hand disinfectant in portions again.

#### Surgical hand disinfection: 1.5 min

Hands and arms must be kept moist by the undiluted product during the entire application time.
